

tsm (propagacion S->M)

The diagram illustrates backward propagation from the receiver back to the transmitter. It features a long black arrow pointing to the left, starting from the right edge of the yellow 'p2' block and ending at the left edge of the blue 'Software TX' block. The text 'tsm (propagacion S->M)' is centered above this arrow.

$$t1 = t_1 + p1 \mid t2 = t_2 - p2 \mid t3 = t_3 + p3 \mid t4 = t_4 - p4$$
